## Index by First Name

This index spans both volume one and volume two of the "Our Hadeland Ancestors" collection. Page numbers for volume two begin with 289.

Where only a first name appears in the text, if discernible an appropriate patronymic and/or surname has been added to the index to assist with identification.

Norwegian immigrants were unfamiliar with the idea of last name as family name. In Norway the third name was the name of the farm on which the individual resided; if residence changed, so did the 'last' name. This, coupled with a desire to Americanize both first and last names, meant that most immigrants tried out a variety of names and spellings before settling on a permanent moniker. Variations in spelling and alternative names that appear in the text are all included in this index.

This index is available to the public in the 'Resources' section of the Hadeland Lag website, [www.hadelandlag.org](http://www.hadelandlag.org)
